

CAT: Calibrated Automated Thrombogram
TEG: Thromboelastography
CF: Coagulation Factor concentrations
WB-TEG: Whole Blood TEG
FF: Functional Fibrinogen
P-TEG: TEG on Plasma
PLT: Platelet Mapping
R-TEG: Rapid TEG

CAT: Calibrated Automated Thrombogram

Datasets used in this Manuscript

Trauma Patient Dataset

Dataset (1): ACIT Dataset that includes 1671 trauma patient

Dataset (5): 252 Trauma patients that were alive at 24h and had full CF measurements

Dataset (9): 40 Trauma patients that included CAT measurements

Dataset (10): 15 Trauma Patients with CF concentration, WB-TEG and R-TEG measurements

Dataset (2): COMBAT Dataset that Includes 125 trauma patients

Dataset (6): 99 Trauma patients with CF, WB-TEG, R-TEG, and FF measurements

Dataset (11): 46 Trauma patients with PLT measurements

Normal Sample Dataset

Dataset (3): 15 Single Donor Normal Samples

Dataset (7): 10 Single donor P-TEG, CAT, and Factors II, VIII, X measurements

Dataset (4): 20 Samples from normal individuals, with CAT and CF measurements

Dataset (8): 5 Samples with CF, CAT, P-TEG, and WB-TEG measurements
